Fin Rock
Academy

Ai-Integrated Education

The Next Generation Of Trading & Finance

From absolute beginner to professional-level market knowledge.

AI

Research & analysis

LIVE DATA

Market intelligence

MENTORSHIP

Practical guidance

AI • MARKET DATA • INSTITUTIONAL TRADING • PROFESSIONAL MENTORSHIP

Learn with purpose.

Market education combining foundational concepts, institutional-style analysis, AI-assisted workflows and practical mentorship.

THE FINROCK APPROACH

Understand the market before you trade it.

Structured education for beginners, active learners and aspiring market professionals.

MARKET FIRST

Build knowledge of price, structure, liquidity and trading basics.

TECHNOLOGY READY

Explore research, analytics, market data and AI-assisted workflows.

PRACTICAL LEARNING

Connect concepts with live-market observation and guided exercises.

MENTOR SUPPORT

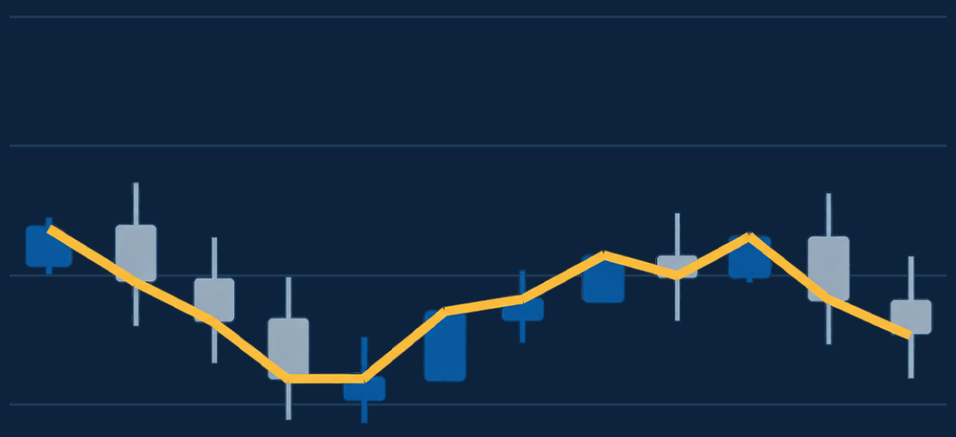

Learn decision-making, discipline and risk awareness with guidance.

The Indian trading landscape

Understand Indian market dynamics, equity trends and index movements.

INDIAN MARKET

EQUITIES & INICES

Explore market terminology, index behaviour, price action, structure and risk in an indian-market context

Start with the basics.

A progressive route from market fundamentals to analytical depth and professional development.

01

FOUNDATION

Markets, terminology, order types and trading basics.

02

PRICE & STRUCTURE

Price action, technical analysis and market structure.

03

RISK & PSYCHOLOGY

Position sizing, risk controls, discipline and journaling.

04

ADVANCED DATA

Order flow, footprint charts, market profile and liquidity.

05

AI & RESEARCH

AI-assisted analysis, pattern recognition and strategy research.

06

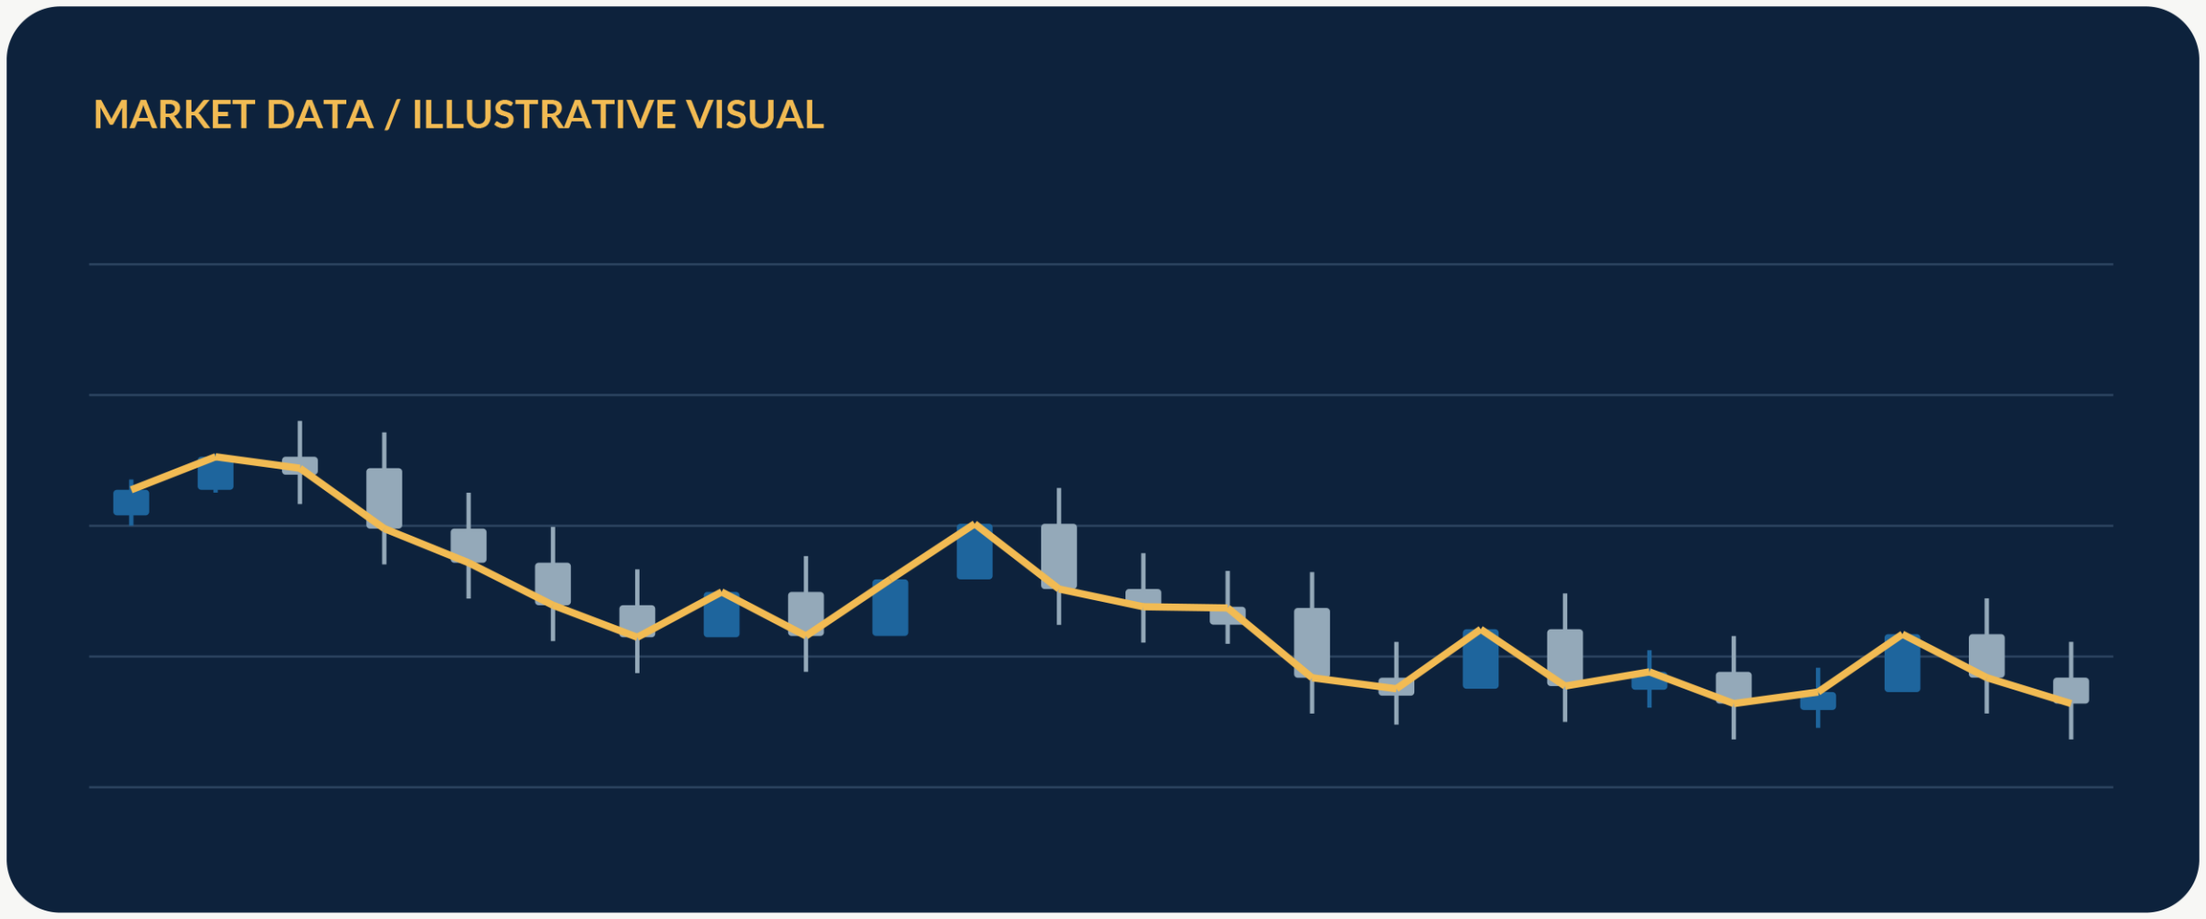

LIVE APPLICATION

Mentorship, live-market observation and process review.

BEGINNER > TRADER > ADVANCED ANALYST

Go beyond the chart.

Learn to interpret participation, liquidity and information - not just indicators.

- **ORDER FLOW**

  Understand buying and selling activity.

- **FOOTPRINT CHARTS**

  Explore volume and executed transactions.

- **MARKET PROFILE**

  Study price acceptance and market context.

- **ARBITRAGE**

  Explore price differences across venues.

- **TICK CHARTS**

  Read transaction-based market activity.

Data into decisions.

Modern technology can support research and analysis. It does not replace judgement or risk management.

AI-ASSISTED WORKFLOW

1. RESEARCH
2. DECODE DATA
3. ANALYSE
4. DEVELOP A PLAN
5. REVIEW RISK

LIVE-MARKET TRAINING

Observe real-time conditions, analyse setups and build a structured decision process with mentor support.

PRACTICE WITH PURPOSE

Develop market awareness, maintain a journal, apply risk management and review your reasoning.

Skills that travel.

Financial-market knowledge can support further study and multiple professional pathways.

TRADING

Independent or professional market participation.

MARKET RESEARCH

Financial analysis and market intelligence.

BROKERAGE

Knowledge relevant to financial services.

PORTFOLIO

Foundations for portfolio-related learning.

INSTITUTIONAL

Market structure and professional data concepts.

TECH + ANALYTICS

Research tools, automation and data workflows.

Diploma or certification pathways, where offered, depend on the relevant awarding body and its requirements. Education does not guarantee employment, income or trading profits.

YOUR NEXT MOVE STARTS WITH KNOWLEDGE.

Explore Indian markets. Understand global forex. Build a stronger foundation in data, discipline and market analysis.
